Ford Amateur Astronomy Club

The Ford Amateur Astronomy Club (FAAC) welcomes you!

Educational Outreach

Are you looking for a speaker to talk about astronomy at your school, library, scout group, or other organization?

We have several club members who can give various presentations, including bringing a telescope to you. Some are even NASA Solar System Ambassadors!

Email us to make arrangements.

Interested in Astrophotography?

FAAC's affiliate Plymouth Astrophotography Club is just right!

Meetings monthly on the first Tuesday at the Plymouth Library.

groups.io/g/PlymouthAstrophotography

The FAAC is a group of amateur astronomers, gathering mainly from the southeast Michigan area. Our mission is to provide avenues to learn, explore, and share this hobby.

Join us, for a night, or for a lifetime of fun!

Public observing nights

Do you want to look through various telescopes and see what the night sky has to offer? Or do you need help with one you've purchased? Then come join us at one of our public observing nights, generally held once per month April through October. Check our website calendar for details.

We also host an annual **astronomy conference and swap meet**.

Become a member!

Join the club to take part in all the benefits of FAAC membership. The fee is \$30/year for the first year, and \$25/year renewing. Membership includes everyone in your household.

- Enjoy after-hours access to our Island Lake Recreation Area observing site
- Club observing at the Hector J. Robinson Observatory in Lincoln Park
- *Star Stuff* monthly newsletter
- Open invitation to all observing nights, picnics, and dinners
- Monthly keynote speakers and "What's Up in the Night Sky"

Messier 51

Monthly Meetings

Monthly FAAC meetings are held on the 4th Thursday of most months, 7 pm, on the campus of Henry Ford College in Dearborn. Check our website for more details.

Each meeting presents an opportunity to share observing experiences with fellow astronomers, ask questions, and watch the main astronomy presentation.

These meetings are open to the public and have an online option. Come check us out!

Don't have a telescope? No problem, we can lend you one!

FAAC has an inventory of various telescopes and other equipment available for members to borrow.
